**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After years of enslavement to Comcast and AT&T, I signed up for Sonic for internet and phone service for my home. We need companies like Sonic to provide competition to these providers that put customers last. Sonic provides reliable internet and phone service, something that I never was able to get from Comcast or AT&T, which would buffer or drop consistently and often. I have fiber now and it is so much better than DSL or any cable service that I've received in the past.

I also have Sonic at my home in Sonoma, CA, which is a rural area. Internet service is even more unreliable and slow there. It has been a constant battle to obtain service at marginally usable speeds. Since getting Sonic, I have not had the same issues.

Competition is good. It keeps prices down and service high.

Thank you for your consideration.

Stella Kim
