**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We are currently subscribers to Sonic Internet. We've used both of the other providers available in our location in the past -- AT&T and Comcast --and their service was terrible -- slow, erratic, expensive and with inferior customer service.

Sonic, on the other hand, is outstanding and a big improvement on all fronts. The fiber optic internet is vastly superior plus less expensive. We work from home and having fast internet makes all our business transactions, uploads and downloads, much more effective.

It is essential that the dsl market place remain open to such quality internet service providers.
