**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It is critical that consumers have competitive options to choose from for a Broadband provider. We support broadband competition.

Broadband is critical to our home as well as many other homes where people need to work from home on a regular basis and have a need for gigabit speed broadband at a competitive price.

In the past we had DSL and more recently Cable. We switched to Fiber in order to have Gigabit Fiber speeds at home.

Broadband providers are critical in this age of increased need to gigabit speed to the Internet.

I request you to:

- Enable competitive market entry
- Encourage new fiber network deployment

Thank you.
