**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition in the Internet Service Provider space. The options are embarrassingly slow and overpriced.

Fiber should be the standard, and cheap. The US is years behind the state of the art.

We don't have fiber available everywhere, but we should We need more competition in the ISP space --- OR --- we need internet to be a public utility, cheap, and fast fiber for everyone.

It would unlock new business opportunities. The current entrenched players (AT&T et. al) are competition stifler.

When the 1980s lawsuit to break up AT&T happened, we were on the right path. Since then, the monster has reformed and consolidated back into existence. Stop this now.

David Aguilar
