**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. My company is superb in offering me the services I need and is extremely responsive to my needs as a customer and consumer. I do not experience the same thing with other providers such as ATT, etc. I want competition in the market place in order to maintain healthy business practices which are ethical and caring as well as respectful and responsive to customers.

I definitely disagree with increases to the cost of the internet and also telephone services. Choice has always been an important aspect in any healthy business environment and offering more options is the key to this. Smaller companies tend to be more innovative, creative, and tend to serve the public more effectively than the larger corporations which are supporting this deregulation.
