**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have selected Sonic internet provider by terminating the service from AT&T. Because the AT&T does not supply enough speed and lower price for the internet providing. Because of necessity of much data transfer by using internet for my work, also for my familys entertainment and digital communication, we need better internet provider services. It does not need to be only with big companies, but if small internet provider supply good service, we all choose such internet providers. Furthermore, I noticed that AT&T has changed the price of the service without telling us. In addition, AT&T did not decrease the price of the service (broadband) even though they supply better service with same price (for fiber). These are the reasons why we wanted to change the internet provider to current service. This kind of fair competition should come up to any business and supply good quality contents to any family. My family including my kids really satisfy current internet provider (Sonic).
