**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Fiber is 100% the future of the internet. It is incredible to me that the richest country in the world and the country that invented the internet has such terrible service. This is not a technological challenge, but a regulatory one. The economic drag we create on businesses by not providing them with fast, stable, and affordable internet. I support smaller internet providers because I strongly believe they are the key to improving internet service in the US. Keep competition alive and bring the US into the 21st century.

Matthew Schultz
