**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Do NOT to dismantle the 1996 Telecommunications Act. I want access to competitive market services for communication and internet. I want competitive innovators to have access to the hardwire infrastructure so that utility poles and wires can be used efficiently and shared without dozens of competitive users stringing their own wires overhead.

I live in one of the richest areas of the country for tech innovation, the SF Bay Area. Local providers are the innovators that are bringing users faster speeds and competitive pricing. I am able to access innovative new services thru the regulated infrastructure network, encouraging further innovation while providing me with affordable services.

Do NOT deregulate this industry. Maintain competition and innovation and allow us as citizens to have access to affordable, appropriate services we choose.
