**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a San Francisco resident who uses Sonic's Gigabit Fiber services. I previously used Comcast's bundled television and Internet services. I was hugely relieved when Sonic began offering Gigabit Fiber services in my neighborhood and signed up as soon as they were available. Comcast's internet service was the fastest available at the time, but their customer service and prices were awful. I was SO happy to have Sonic compete with them - giving me the option to vote with my wallet for a good product and good service.

Fast, reliable internet should be a public utility at this point. Until that happens, please keep internet access fast and cheap by supporting competition.

Brooke Gardner
