**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

For many years I have used Sonic.net, a local internet provider. I chose Sonic because of their superior customer service and features. A couple of years ago, Sonic upgraded my service from DSL to fiber. It has been an incredible experience to have super fast internet connection speeds and not have to deal with the trouble and frustration that giant mega-corporations like AT&T, Comcast and Verizon consistently provide their users.

Broadband competition is critical for the American marketplace and for the American consumer. I strongly urge you to support the Bridge 2 Broadband to continue innovation and prevent the freezing of the deployment of new networks that would occur if competition is not allowed to occur.

Additionally, it's important to remember that Police, Fire and Local Governments look to competition to assist them in providing life-saving services. The lives saved could be yours or someone you love.

I implore you to save broadband competition and help preserve America's future.

Jason Bryan
