**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC and To Whom It May Concern:

I'm writing to let you know that I have never been happier than with Sonic as my broadband provider. In San Francisco, I only had one real option and that was Comcast, but it goes down too often and was too expensive especially for the down time people experience. I didn't even consider AT&T as an option because I had them before Sonic and the system was terribly slow and creaked along in no hurry.

Sonic has been a champion as a high-speed provider as it delivers what they advertise including the ever so important dependability. They even upgraded my service to 5G without me asking and without any additional cost. The promotional rate was great to start with, but now that I'm beyond that timeline, I'm still pleased with this exceptional service and fee.

I'm pleased that the FCC has allowed for open competition in our market and urban area. It's significant that politics and lobbying doesn't replace the healthy concept of serving the people and freedom of choice.

Please continue this intelligent approach to broadband services and do not let U.S. Telecom lead you down the wrong path for it's personal interest and greed.

Best regards,

Cynthia Hamada
