**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Before I switched to Sonic for my WIFI needs, I was a customer of Comcast. I had many bad experiences with Comcast and they could care less about that because they were the only wifi company to offer service in my neighborhood. I filed many complaints against Comcast with the FCC about being ripped-off, rude service, and paying for a product that was overpriced. The only way I solved my many problems with Comcast, is when Sonic started offering service in my neighborhood, I dropped Comcast like a hot potato. I have been a customer with Sonic now for several years and never had a problem with service and never filed a FCC complaint against Sonic. I do not want to see any price hikes because internet service is expensive now and all the government taxes and fees add at least \$12 to my monthly bill. Good broadband like Sonic offers is critical to my home and business. Today with Sonic I have fast fiber before with Comcast I had slow DSL. So, please stay competitive because without competition, companies like Comcast get too greedy and the service goes downhill, because they know the customer has no other choices to turn to.
