**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I picked sonic.net as my ISP because I received a much lower price with faster gigabit speed via fiber. My phone service is also provided by my local ISP. I was previously using DSL and cable internet. I am sure that ATT and others would not offer me any phone service for free. This so-called "deregulation" will not only increase prices but will create duopolies in major markets and monopolies in major markets.

If the FCC is truly interested in creating access to all American, allowing for more competition, it should reject this proposal by the lobbyists for the major telecom giants like ATT.
