**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition in the broadband market place (copper or fiber). Lack of competition would lead to lack to innovation and increase of prices. Furthermore, the existence of real competition will keep all players in the market place honest, as consumer has real choice. There are many broadband providers (for example Sonic.net) provide unbundled services. Dismantle the 1996 Telecommunication Act will adversely affect residential consumer like us.
