**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a customer of Sonic. Apparently you never heard of them, but they have been providing my internet service for over two years. I chose Sonic as my internet provider because of their ethics and I've stayed their customer because of the amazing service they provide to their customers.

As you may know, Americans don't get a lot of choices when it comes to internet service providers. I am lucky to have this choice. AT&T and Spectrum are the only other options here: both are over priced. Both treat their customers abhorrently.

These proposed price hikes in internet is absurd. In this age we all must all have access. It's a utility that must be affordable for all: just like water, gas and electricity. It's vitally important to our health as a nation.

As an American, I demand that I have choice in the service providers I chose. Stop the acquisitions that create a monopoly on vital services. And keep the UNE services in tact.

Thank you,

Glenda Suggs
