**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose Sonic.Net to provide fiber optic internet because they provide excellent service provide fast internet service and are located locally. Because they compete with AT&T and Comcast, it has resulted in lower prices locally for both us and AT&T and Comcast customers. The fiber optic service provided to us is a huge step up from the previous DSL connection I had.

I use the internet for both work at home and my family uses it for entertainment. I believe it is the competition between internet providers that keeps prices lower and quality of service higher. I urge to do nothing that will reduce the competition between internet providers.
