**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We as consumers and individuals will not tolerate your imposed telecom monopolies and disregard for competition in the ISP space. The likes of Comcast and AT&T offer poor and overpriced service, do not reinforce their poor business operations and practices.

Your inability to create a service structure that includes privacy and net neutrality is a grave concern to economic freedom and free speech. Additionally, it reduces competition and innovation.

Lastly, the FCC has proven itself lacking integrity around net neutrality issues, notably during public comment periods. As an individual looking to create a better country for generations ahead. I encourage you to enact appropriate ethics and power-checks within your organization, including government oversight and transparency.

Matthew Butner
