**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I & my wife live in a mobile home park, we have one TV, which comes with a land line telephone - ATT required this so we could get the 'best' wi-fi for our laptop service. I don't like the land-line, rarely use it, and our overall service with ATT has been poor.

We signed on with Sonic several months ago - it has had better service, and is less expensive. This was great, since our income is simply Social Security...nothing else. Our monthly billing takes care of most of that income, and to have any extra activities we sometimes dig into our modest savings.

Pushing our 80's, we are against rising prices....for everything we're involved in, with no way to change all that. Now, with intentions to improve communications between all those involve in the fire-fighting here in Northern Calif., our personal service with electronic devices - laptops, cell phones, etc. - has been restricted. And, since Sonic is dependent upon with ATT lines, we suffer with very poor and frustrating results in the simplest form of communication with our friends and loved ones.

**WE ARE TOTALLY AGAINST ANY AND ALL COST INCREASES!!!**
