**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I support broadband competition! Big companies are only looking to lock in an unending supply of revenue by reducing competition, giving me less for more and crowing out innovation.

I work from home and use large data files for Computer Aided Drafting and 3 dimensional building modeling for Architects. I routinely go over the "data caps" Comcast and AT&T put in place with my late night work file transfers. This is crazy living in the California Bay Area that I have such poor service. Comcast and AT&T love to advertise the fast numbers, but that does nothing for people who use the internet as part of their job and need large file transfers at their houses.

Please support broadband competition and make the big companies actually work for their profits.
