**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I had used Comcast (Xfinity) for 5 years up until they send me a letter telling me that my family was using too much internet. I had been paying for their Extreme package in which had no limits until one day Comcast decided to impose a limit unannounced to their customers. Paying \$105 per month for 25mbps (plus phone) and then being told I only had so much a month was troubling to me. I have a family of 6 in which we connect to the internet for work (VPN) and entertainment (games & movies). When I received the notice, I immediately looked for another provider. I found SONIC which is a small company in my area that provided me 1gbs at \$40 per month and no limit restrictions including phone. Why in the world would we ever support a law that allows large companies to over charge customers and limit their abilities? The way I see it, in the 60 months I was with Comcast, I had over paid \$3,300 for a far less product. By not supporting competition, you are giving rights to large companies to continue to abuse the public. Please say yes to competition and allow small companies like SONIC to provide services at a fair rate.
