**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please do not take fair broadband competition away from the American People. Allowing companies to compete gives consumers choices and options that we didnt have before. I have had internet and phone before from the one company that won the contract for the city. The service and the product received were subpar and without competition there was no urgency to improve due to the contract in place. It wasnt until the contract expired that the companies came up with a plan to improve the service or product. Giving consumers options for different providers push companies to invest and stay competitive which improves their products of service and keeps costs reasonable. Please stand up for American Citizens.
