**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband is vital to America's future and even more important is fair competition to level the field for the smaller isp. We currently subscribe to Sonic in San Francisco CA. and we couldn't be more pleased with the product service and price.

In our neighborhood It appears that Sonic has more subscribers than the two national corporate competitors. I guess the reason for this is for about half the money we get fiber plus phone service versus dsl or cable internet which on a good day only provides one quarter of the speed of fiber.

The giants of the industry should concentrate on changing their networks so they can offer a more pleasing product rather than changing the laws to keep prices high and competition low.

That still is the American way isn't it?
