**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need competitions and choices on the Internet Service Providers. If you take out the completions, not only the the costs for us, the customers, will eventually increase. The big providers will not allocate their resources to improve their services because there is no competition, and customers have no other choices. No need to say they also want to maximize their profits. Better Internet can help to drive better economy of the United States. If FCC diminishes the small Internet service providers, the entire US will also loss its competitive edges to other developed countries.
