**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I enjoy the fact that there is competition finally with internet service. I was tired of the poor customer service and constant rising internet prices. There was nothing I could do because there was no competition and the internet providers knew that. Letting the big fish squeeze out the small fish because they have competition finally is an absolute trash solution. Without competition these big internet companies will continue to over charge consumers and treat us like thats all we have to choose from. People in my city of Brentwood love Sonic and many are waiting on them to get to their neighborhood so they dont have to deal with Comcast and AT&T anymore. I have dealt with Comcast and AT&T before and trust me, they need competition.

Sincerely a Nestle Analyst who works from home and relies on good affordable internet service.
