**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Thank you for making policies that will help make America's communications network reliable, more competitive and efficient.

I chose a smaller competitive internet provider named Sonic because I needed and got a high speed internet and phone service at a substantially better price than a few large providers would provide.

Competitive broadband communications brings better value and innovation, and because my provider brought a fiber network instead of DSL that was slow and more expensive, I am able to communicate, be more informed, and do my work better.

I want to keep my expenses low in my home and business and want your policies to support local carriers because they are important in keeping prices down and providing the latest technologies to us.

Thank you,

William Chin
