**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

WE had AT&T service for internet TV and phone for decades. At the end about 2 years ago, when we became realtors the internet service became horrible when we tried to send out 15-20 pages it would take 30 min. or longer and at times would not send at all. We had technicians coming to our residence on weekly bases, unable to help us.

Then we had seen SONIC technicians installing on the street fiberoptic service. We made a call to them and found out that there service on the internet is 1 gigabyte. It was the end of AT&T. Same amount of pages now will take to send out 5 seconds, just blowing a way services of AT&T and COMCAST.

Please DO NOT destroy companies who are making the life of consumers BETTER.

P.S.

On the top of everything, SONIC includes a land line for free and unlimited time to Europe. Any person, would be able to understand, why would those major company are trying destroy company like SONIC.

Thank you for reeding my comment.

Go SONIC.
