**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please look at other countries who have a robust competitive Internet marketplace. Costs remain low, speeds continue to go up, and customer focused innovation increases across the board. America should be as good if not better. I pay \$80/month for less than what your own organization considers broadband speeds these days. Its a palling and we collectively as a country should be embarrassed. We invented the Internet. We should be leading the way here. You and you alone can make that happen.
