**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I urge you to support broadband competition. I as a retired person rely on a fix income to cover all my necessities. I also deppend on the internet access for medical services as well as communicating with my family. Sonic is providing Phone and internet service at a price I can afford. I had to disconnect from ATT because their tariff got so high I couldn't pay it any more. It is critical to maintain some competition otherwise increase in service cost run rampant.

If telephone companies get away with deregulation on all broad bands; We retires will be left without this essential service of modern communication.

Please consider the millions of people that will not be able to afford, medical access, banking, education, important information, and human contact with family and friends.
