**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The internet in a public utility like electric service that should be made available fairly for all.

When the FCC began they understood the value of providing equal access with telephone and radio and now they need to keep it open for competition for all.

For home office and remote workers like us, we rely on consistent reliable high speed Internet access provided by fiber.

Previously we had been stuck with the cable company and their performance speed and Service were very erratic and ended up costing even more .
