**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have been a grateful Sonic subscriber for the last 4 years. The difference in the quality of broadband service they have provided is astoundingly better than the AT&T service I had previously for at least 20 years. AT&T was frustrating from every angle: poor DSL service with frequent outages, poor customer service which meant spending hours on the phone trying to resolve issues with service. Sonic came along and everything changed for the better. They are an fantastic alternative to what everyone was forced to use earlier. The phone service is even better too!

I live in a small community and am amazed that Sonic will be installing fiber cables in my area soon.

Please don't take away what they provide!
