**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am both a consumer and small business owner, who supports broadband isp competition.

My home has many weak-signal areas. For years, we I had extremely unreliable wi-fi, that made it hard to accomplish tasks, such as emailing files or watching a movie.

Sonic was the provider that brought fiber to our area and instantly our productivity improved.

And on a very basic level, the FCC should be working for the consumer. It is obvious that deregulation, regardless of what the large companies say, does not benefit the consumer either in service or price.

It's time the FCC represent the consumers and small business owners, that benefit from multiple competitors in both service and price.

Thank you.

R Luke
