47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a customer of Sonic, a regional ISP that provides incredible service and value for the dollar, and I am strongly urging you to put your full weight behind competition in the marketplace. Previously, I had Comcast, but for less money and without a contract, I had service and performance more than 5 times higher with Sonic.net than what Comcast was providing. I work in the high tech, small business sector, employing several people and hiring more as we speak, and I depend on this connection to help them succeed at their jobs. My connection at home is better than many universities and corporate headquarters, all for \$50/month. This is absolutely amazing and something that makes these United States the best country in the world.

Please, help facilitate competition so others can share in my story!

Best,

Diego Solano
