**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I changed over to Sonic Internet Fiber as they provide more better service, much more faster Internet and at a more competitive price than my slower AT&T DSL Internet which used to be the the same cost as my Sonic Fiber Internet bill. I said NO to AT&T price hikes as they slowly raised my DSL by a few dollars every month and year. Broadband is critical to my home because Comcast cable keeps taking away my TV network channels unless I pay more to get them back. I was forced to "cut the cord" and use Playstation Vue streaming video service to get back my channels which requires broadband. I hate companies that have Internet data caps for home use as it doesn't make any technical sense other than to collect more money and I support more broadband competition.
