**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Allowing massive telcoms to corner a market, almost to the point of monopolization, is not only abhorrent, it is against everything that makes a capitalistic market work. To allow a company to force their product on consumers without any sort of alternative allows them to hike up prices without ANY sort of checks, balances or competition to help the common person. Not only did the FCC allow the destruction of Net Neutrality, but are now following through with the rest of their plan to do what? Allow yourselves to be bought and lobbied by theses companies for a paycheck so that telcoms can do whatever they want to the American people? Because that's what it seems like to me.

Please, don't allow this part of the government to be bought and paid for anymore than it already has. The government, and all of its branches are supposed to be PUBLIC SERVANTS. Not servants to corporate greed. Make the right decision and support broadband competition for the American people.
