**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I was a AT&T customer for many many years for their DSL and landline phone services . . .
I never got the internet speed that they promised (sorry I forget the exact number). The average
speed I'd receive was around 2 to 5 MBPS, I complained to ATT many times and was told because
my house location (in Ocean Beach, Richmond district, San Francisco)
is 1.2 miles from their closest Hub, there for can't get higher speed. Needless to say I had trouble
uploading and downloading. During that time there aren't many choices . . .

Story short . . . am so happy to see Sonic come to our neighborhood and offer Fiber internet
services with a very reasonable price more importantly, much higher speed . . .
therefore I can uploading and downloading in a timely fashion, no more long long waiting for the
process.

Broadband is important for our community . . . hope you will consider support broadband
competition.

Thank you.
