**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want more competition which is why I appreciate Sonic. My family do not have much of a choice between Comcast/Xfinity and ATT Uverse who always have misleading promo prices and once you are locked in for 2 years, prices go up. They only provide options that corner us into having combo-packages and not allow us to have only 1 product (since 1 ends up being more costly).

Sonic is honest and straight forward and gave us the opportunity to have a product that is reliable. It is also a great option for other families with limited household income. It does not sneak up on our backs with unexpected price hikes.

Sonic is reliable. My husband and I work from home and we have since, been more efficient with our work with less interruptions with the connection.

We used to have DSL connection but now love our fiber connection.

We need to keep Sonic in business. It is critical so that we continue to have the freedom to choose the best product that would meet our needs, both at a personal and business level.

Thank you for your time and understanding.
