**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I've been a Sonic customer for a year and a half. It's great to have an ISP who actually picks up the phone when you call customer support and is responsive to customers' needs. More importantly, Sonic stands up for net neutrality and an open internet, while AT&T spends money lobbying our state legislature against net neutrality (thankfully they failed).

All the people I know who has only one or two internet or cable options elsewhere in the country (and even in parts of the Bay Area) are dissatisfied with their service. The FCC owes it to the people living in this country to help maintain our competitive internet and telecom services.
