**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in a small town with a population of less than 600; it's considered a rural area, and I appreciate all the work that my internet provider has done for us to bring us very good internet service.

I've also lived in a larger community and done business with Cox Comm., AT&T and other bigger providers. They have more down times due to mass service area and more customers to service. I know when you take on more than you can handle, you have to raise the price and that cost goes to the customer.

I would just as soon keep my local provider.
