**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm writing to voice my support for local ISPs and to reject USTelecom's call to stop requiring the large Telecoms to have to share their networks. I use a local ISP for both my small business and residence in San Francisco. I now have fiber but was recently a copper line phone/DSL customer. Having a local ISP provide competition to AT&T and Comcast has been crucial to providing additional choices and to help lower costs. My local ISP also has better privacy practices than AT&T and Comcast which is very important to me.

I encourage you to vote NO against reducing competition and the resulting price hikes that will happen if USTelecom gets their way.

Thanks for the consideration.

Justin Fraser
