Re: *Unlicensed Use of the 6 GHz Band, ET Docket No. 18-295; Expanding Flexible Use in Mid-Band Spectrum Between 3.7 and 24 GHz, GN Docket No. 17-183; Amendment of Part 15 of the Commission's Rules for Unlicensed White Space Devices, ET Docket No. 16-56, RM-11745; Use of Spectrum Bands Above 24 GHz For Mobile Radio Services, GN Docket No. 14-177*

Dear Ms. Dortch:

On Wednesday September 4, 2019 Jeremy Susac, Vice President, Government Affairs for Lennar Homes, ("Lennar") David Goodfriend and DeVan Hankerson, representing Lennar, met with Commissioner Michael O'Rielly and Erin McGrath, Legal Advisor to Commissioner O'Rielly. The purpose of the meeting was to discuss the applicability of the building codes and energy efficiency standards to other wireless dockets.

With respect to the 6 GHz proceeding, the undersigned stated that new home builders care about wifi because home buyers want connected homes. There was discussion about Lennar's WiFi-Certified Home and consumer demand for smart-home connectivity.

The undersigned stated that regardless of the outcome of the 6GHz proceeding, the intersection of building codes and indoor wireless coverage is broadly relevant to a number of wireless dockets and that more inclusive participation of the FCC at the DoE would bring about greater transparency into the building code-setting process.

Respectfully submitted,

_____/s/_____

DeVan Hankerson, Snr. Director Public Policy & Gov't Relations
Goodfriend Group
