**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a consumer that looks for competitive pricing for internet usage any attempts to reduce or dismantle any and all regulations that allows for competition in this market would be a financial disaster to those who need affordable broadband services by limiting it to a small number of telecommunication companies.

It is now next to impossible to get low cost landline phone system in rural area and becoming more difficult in congested urbanized area.

With the option of high cost cell system or internet connected VoIP system those that live on fixed or limited income can end up paying up to if not more then 20% of their income, is that what FCC what for the future, a limited accessible system of communication for the few?

Sad.....
