**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic.net is without a doubt, the best ISP available in my area. Even though I have several options I still choose Sonic.net for several reasons. One, they are among the few ISPs that care about its users' privacy and places an emphasis on it. Two, they are a locally grown business. Three, they are also strong proponents for net neutrality.

I was stuck with DSL previously and thanks to them can now access a much faster fiber network.

AT&T and Comcast cannot be allowed to continue to build their monopoly in telecommunications. There was a time when we believed perhaps Google Fiber could do some good. But even Google was unable to fight against AT&T and Comcast's despicable tactics to allow more competition. Our only hope is for local providers to service their communities!
