**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I SUPPORT broadband competition. I am a consumer and I support broadband competition. I chose a competitive provider because their service is so much better, there are fewer ads and interruptions (which are very annoying), they capture unwarranted emails so that I don't have to wade through them and am able to delete a group at a time, and their speed is terrific and lastly, their cost is very reasonable.

I don't want any price hikes -- "No" price hikes that will increase the cost of internet and telephone services. I am retired with limited resources and having reasonable pricing is a necessity.

I've had AT&T internet and phone service previously and there is no comparison in value to what I have now. I kept my mobile service with AT&T but only use it on occasion, I mainly use broadband in using email.
