**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a small business owner and it is critical to have reliable and affordable internet connection.

I'm traveling and can see Internet service in different countries. For example, in Russia the Internet service is a fiber for everyone and comes at much lower price. Though, what is different is very well established competition in this market.

Contrary, I see almost no competition here in the US and on top of that you plan to cut even that minimum.

With all respect to government agency, I'm asking to give more chances to competition in the US rather than limiting it. Let free economy be free and thrive!

Thank you and kind regards.
