

September 6, 2019

The Honorable Ajit Pai
Chairman
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Mr. Chairman,

I write to express Amazon's support for the Commission's forward-thinking spectrum policy and efforts to ensure American leadership in next generation wireless technologies.

As you know, the availability of unlicensed spectrum is of great interest to Amazon and our customers. Amazon uses unlicensed spectrum to deliver a smarter, faster, and more convenient and consistent customer experience, and access to unlicensed spectrum is essential for the creation and growth of groundbreaking consumer-oriented technologies.

Amazon appreciates your efforts to expand access to unlicensed spectrum and to create new opportunities for the next generation of Wi-Fi. That is why Amazon supports the Commission's ongoing proceeding to permit unlicensed operations in the 5.925-7.125 GHz band. This spectrum band will play a critical role in supporting the development of innovative wireless devices and technologies that offer consumers valuable new services. Amazon respectfully urges the Commission to move forward with the proposed rulemaking and to continue your efforts to maximize efficient use of the 6 GHz band by expanding unlicensed access while protecting incumbent users.

Please direct any questions to the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Huseman".

Brian Huseman
Vice President, Public Policy
