**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need to keep competition for our phone and internet service. For the past 30 years I have run a small business. For the past 12 years I have been using Sonic Net for my internet, email and billing. For the past 3 years I have also been using Sonic Net fiber for for both my internet work, mailing, billing and both business and home phones.

I had used AT&T all of my life...however. Once I tried Sonic Net there was no going back The reason I chose a competitive provider, Sonic net, is because of the huge cost savings over A&TT. The quality of service is far superior to AT&T's. Sonic Nets fiber optic line speed is fast and the cost saving have been considerable... especially for a small business like mine.

Sonic Net has made a difference in my both business and personal life. I recommend Sonic Net to all of my friends...most of then are unhappy with AT&T's pricing and service . We need to maintain the competition for our phone and internet service.
