

**WE NEED YOUR HELP**

WE HAVE NO PHONE NUMBER. MAILED LETTER JAN. 11. RECEIVED NO RESPONSE.  
LETTER WAS NOT RETURNED. MAILED SECOND LETTER 4-25-89.

to 24 hour broadcasting. This problem seems to cover a large area in and around the Poplar Bluff area

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get used to it. You will never be able to pick up channel 6 again and we're not responsible for interference on radios, TV's, tape players ETC."

People are being out money to see why their TV's and radios are not working right. People do not know why they're having these electrical difficulties over the past months, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and necessary equipment are being affected in our households and businesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burglar alarm systems, and baby monitors also receive the radio station signals.

If you're receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children cannot enjoy regular programming or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our necessary household and business items.

We have tried for many months to get these problems solved. The radio station seems to think everything is okay, but we need to let the station know these problems exist.

These letters will be sent to necessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

People do not know why they're having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. AS you read this letter please support this effort to solve this problem.

Many items and necessary equipment are being affected in our households and businesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burglar alarm systems, and baby monitors also receive the radio station signals.

If you're receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children cannot enjoy regular programming or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our necessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okay, but we need to let the station know these problems exist.

These letters will be sent to necessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

**COMPLAINTS CONCERNING CHANNEL 6 INTERFERENCE**

Are you having electrical difficulties due to the radio signals from KOKS in your area?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programming of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. NOW 24 HRS.

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and necessary equipment is being effected in our households and businesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. CALLED 4-7-89. 10:50 A.M.

CHANNEL 6 ONLY.  
TOLD OF FILTER.

... around 8:00 a.m. and stopped around 8:00 p.m. Starting about December 1st KOKS went  
24 hour broadcasting. This problem seems to cover a large area in and around the Poplar  
Bluff area

We have been told by the KOKS radio station "We will be staying on the air, everything  
will stay like it is and you might as well get used to it. You will never be able to pick up  
channel 6 again and we're not responsible for interference on radios, TV's, tape players ETC."

People are being out money to see why their TV's and radios are not working right. People  
do not know why they're having these electrical difficulties over the past months, we hope this  
letter will let you know what is going on. As you read this letter please support this effort  
to solve this problem.

Many items and necessary equipment are being affected in our households and businesses.  
TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals  
on the tape. Any electrical or battery operated playing instruments with speakers receive  
radio station signals, burglar alarm systems, and baby monitors also receive the radio  
station signals.

If you're receiving the radio station signals on your TV, it will be blocked out, snowy with  
static or a blank picture. On your stereo systems and radios you will frequently receive only  
static signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children  
do not enjoy regular programming or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting  
radio signals not to interfere with our necessary household and business items.

We have tried for many months to get these problems solved. The radio station seems to  
think everything is okay, but we need to let the station know these problems exist.

These letters will be sent to necessary offices so we can get help for the people  
experiencing this radio interference. The only way we can stop this is by joining together and  
letting them know what is happening to the public at large. It is not right for anyone to  
censor or dictate the airways.

CALLED 4-20-89 at 2:40 P.M. PROBLEMS WITH CHANNEL 6 ONLY.  
TOLD OF FILTER.

will stay like it is now, channel 6 again and were not responsible for interference on...

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and necessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only the radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children cannot enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our necessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to nonopolize or dictate the airways.
