**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

This household had been with AT&T for over 30 years but became disillusioned. They were responsive only after multiple contacts. The internet (wifi) did not work well except on middle floor of the house, we were getting 4-5 solicitations a day in spite of being on a no call list and being a member of AT&T's *61 program. We finally took the step to switch to Sonic earlier this year. Because Sonic provides fiber where AT&T doesn't the internet is now faster. We are receiving no more than one solicitation a week which is curious. Could these solicitations have been encouraged by AT&T?
