Importance: High

Hi Veronica,

I submitted a request for another extension for La Grande SD and it appears to have been denied. The district can't really figure what amounts to take out of their Category 2 budgets until the numbers from the previous year's expenditures are confirmed and as I mentioned in my previous email, they have gone through a recent change in their tech director so she has been trying to pick up the pieces that were left undone from the previous person. I have been out of the office yesterday and today with sick kiddos so am just getting to the reminder emails. Can I ask to put a hold on this application until we can get some more accurate numbers? We really need more time on this one and would appreciate your consideration in this matter. Thank you.
