To whom it may concern,

Please consider Placerville Union School District's request for a waiver. FCC Form 471 Application #181037396 was submitted at 7:52 PM on the last day of the 471 filing window, March 22, 2018. After submitting this first application I discovered an attachment needed changes. Therefore, with 4 hours left till the deadline I panicked and started the process over. I resubmitted FCC Form 471 Application #181041260 by 11:54 PM attempting to supersede previous submissions, correct and upload all of the appropriate attachments to eliminate denial issues. Our intention was not to request the same funds twice as these were almost exact duplicates other than the attachments that needed corrections. We only want to use the last application submitted #181041260. We were denied by USAC due to duplicate applications.

I worked overtime from 6:00 AM to 6:00-7:00 PM out in the school district every day all summer to prepare the network and classrooms for the new school year. Most days I returned home to remote into servers and continue working into the late night hours and weekends with no vacation. District users were gone for the summer and email messages were not watched carefully. Now that classrooms are in session life is beginning to settle and I discovered we were denied and our deadline to appeal with USAC expired 3 days ago. I sincerely ask for our 60 day deadline to appeal be waived and allow our FCC Form 471 Application #181041260 be reinstated for us to appeal the Funding Commitment Denial through USAC. Please consider this waiver request and let me know if you have any questions.

Sincerely,

Judi Whittington
